Election/Restrictions

1. The numbering of claims is not in accordance with 37 CFR 1.126 which requires the original numbering of the claims to be preserved throughout the prosecution. When claims are canceled, the remaining claims must not be renumbered. When new claims are presented, they must be numbered consecutively beginning with the number next following the highest numbered claims previously presented (whether entered or not).

Misnumbered claims 49-62 have been renumbered 48-61.

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:
- I. Claims 36-44, drawn to a transforming step, classified in class 345, subclass 427.
 - II. Claims 45-61, drawn to spherical images combining apparatus, classified in class 348, subclass 36.

The inventions are distinct, each from the other because of the following reasons:

3. Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention II has separate utility such as combining two images together. See MPEP § 806.05(d).
